

THE SUPER HEALING COMBO

CHIROPRACTIC – AURICULOTHERAPY

Our practice is committed to offering you modern, cutting-edge, natural, and scientifically proven health care methods.

At Super Healthy you can benefit from the latest developments in Chiropractic assessment and treatment technologies – *Safe, Gentle, Effective, Relaxing, Enjoyable...*

You can also benefit from a treatment method which has evolved from the ancient Chinese healing art of Ear Acupuncture. AURICULOTHERAPY has been further researched, designed and developed in Europe, China and the USA. Scientific studies discovered that the reflex points on the ear were nerve system points and not meridian system points as once thought. Further research and development using micro-current technologies in preference to needles has demonstrated how this treatment is able to detect and correct a wide range of health problems.

Put simply, there is a map of every part of your body spread across the external surface of your ear – a Micro-System: Organs, Joints, Glands, Nerves – you name it, there's a reflex point!

Instead of needles we use micro-current treatment: Quick, Effective, Soothing, Relieving...

Why would you choose to combine Chiropractic Adjustments with Auriculotherapy treatment?

- 1) You have an acute pain that you are hoping to recover from quickly without having to resort to pain masking drugs
- 2) You suffer with chronic pain that interferes significantly with your lifestyle
- 3) You have internal pains or health problems that you would like to improve naturally
- 4) You feel like your body needs something extra to function and feel better
- 5) You suffer with symptoms of anxiety or depression
- 6) You are wanting to overcome an addictive or compulsive trait

And at Super Healthy there is no extra charge to add an Auriculotherapy session to your Chiropractic Adjustment! If you haven't experienced this amazing healing combination before drop in and see Nick today.
